INTRODUCTION

Salaries and Wages Information

Presented in this volume are the complete and detailed data on approved staffing for State departments. For each State department the information is reported for the 2000–01 fiscal year on an actual basis and for 2001–02 and 2002–03 on an authorized basis. A more thorough explanation of the content and interpretation of this supplement follows.

Position Titles

In this volume, positions included in State civil service have been listed by the official class titles established by the State Personnel Board. Positions exempt from civil service have been listed by the official class titles established by statute or other authority designated by law. For the University of California and the California State University, the positions are summarized by broad functional groupings. Position titles are generally abbreviated to save space. A table of abbreviations utilized by the State Controller follows this presentation.

Authorized Positions

For the 2001–02 and 2002–03 fiscal years, positions reported as *authorized* are those which were included in the 2001–02 Budget as approved by the Legislature and the Governor. Exceptions to this rule are explained by footnote in all cases other than technical adjustments of position classification to more accurately reflect assigned duties.

Changes in Authorized Positions

Proposed “Changes in Authorized Positions” are presented in individual schedules in each departmental presentation, where applicable, in the main 2002–03 Governor’s Budget volume. These changes are proposed by the Executive Branch and are listed under “Workload and Administrative Adjustments,” and “Proposed New Positions.”

Modifications to these proposed changes as a result of legislative review and final action by the Governor will be reflected in the Final Change Book for 2002–03.

Expenditures

For the 2000–01 fiscal year, actual salary expenditures are reported. The salary ranges reported are those that were generally in effect on July 1, 2001. Salary costs are estimated on the basis of continuous, 100 percent occupancy of all authorized positions and include the estimated cost of merit salary adjustments where applicable. Exceptions are explained by footnote for those special cases in which the above general rule was not followed. Appropriate adjustments to recognize probable position vacancies and replacements at lower steps in salary

ranges due to turnover are included in the Budget (Summary by Object schedule) as “*estimated salary savings*.”

Number of Positions

For the 2000–01 fiscal year, the number of positions represents actual personnel-years of employment counted to the nearest tenth of a personnel-year. A personnel-year is equal to 12 months full-time employment of one person—12 persons employed for one month, two persons employed for six months, or any similar combination equal to one personnel-year.

Positions for 2001–02 and 2002–03 are counted to the nearest tenth and are expressed in terms of full-time, full-year equivalents. The only exception is in the case of full-time positions to be established after July 1. In such instances, the position counts and related salary dollars are adjusted for delayed establishment, e.g., a full-time position to be established January 1 is counted as 0.5 position.

Salary Range

Rates of pay represent salary ranges established by the Department of Personnel Administration (DPA), statute, the Regents of the University of California, the Trustees of the California State University, the Board of Directors of the Hastings College of the Law, or the Chairman of the Judicial Council.

The amounts shown are the minimum and maximum monthly or hourly rates, flat monthly or daily rates, or annual compensation. The minimum of the range serves as the normal entry rate for new appointees to any position in a class and represents the lowest rate to be paid to any employee who is considered qualified for appointment to or retention in a position. The maximum of the range represents the highest rate payable to an employee who occupies any position in the class. These salary ranges are subject to the collective bargaining process for represented state employees.

In some classifications and positions with unusual conditions of work or where it is necessary to meet prevailing rates or practices, more than one salary range, or rate or method of compensation has been established within a class. These “alternate ranges” and the criteria for their application are established by the DPA and/or the State Personnel Board. For classes which have alternate

ranges, salaries indicated in this supplement show the minimum step of the lowest range and the maximum step of the highest range.

Under the pay plan adopted by DPA, a “salary range” is the minimum and maximum rate currently authorized for the class. A “step” for employees compensated on a monthly basis is a five-percent differential above or below a salary rate rounded to the nearest dollar and for employees compensated on a daily or hourly basis is a five-percent differential above or below a rate rounded to the dollar and cents amount. “Rate” for employees compensated on a monthly basis is any one of the full dollar amounts found within the salary range, and for employees compensated on a daily or hourly basis is any one of the dollar and cents amounts found within the salary range.

Merit Salary Adjustment

Government Code Section 19832 provides that each civil service employee shall be eligible to receive a merit salary adjustment of five percent in the employee’s salary range during each year in a position until reaching the maximum. However, this adjustment is contingent on the employing agency certifying that the employee’s job performance meets the level of quality and quantity expected by the agency considering the employee’s experience in the position.

Merit salary adjustments for employees of the University of California and the California State University are determined in accordance with rules established by the regents and the trustees, respectively.

Special In-grade Salary Adjustment

Classes meeting prescribed criteria are eligible for special in-grade salary adjustments; that is, from the first step to the second step of a salary range following completion of six months of qualifying service after appointment, or as otherwise provided by DPA Rule 599.685. These special adjustments are applicable only to the lower paid positions and certain others where there is difficulty in recruiting and retaining employees.

Salary Range Adjustment

Salary range adjustments for rank and file employees are adopted by the DPA based on a ratified Memorandum of Understanding for each of 21 bargaining units and certification by the Department of Finance that sufficient funds are available.

In determining the appropriate salary level for excluded classes, the DPA considers the prevailing rates for comparable service in other public employment and in private business in addition to recruitment and retention needs.

The rates of pay of casually employed trades-workers in State service are established at the hourly wage prevailing in the locality in which the employee is to work. These employees receive all the collateral benefits of premium pay for night work, travel time, overtime pay, hospital, surgical and medical insurance benefits prevailing in comparable employment within the locality.

Casually employed trades-workers working for the State do not receive the same benefits of vacation, sick leave and retirement that permanent State employees receive. However, the State does pay into vacation and retirement funds where such benefits prevail in the locality of work.

Salary Setting Authority

Salaries fixed by statute are those established primarily in Government Code Sections 11550 et. seq., adjusted in accordance with the methodology prescribed in Section 11569. Statutory salary provisions for judges, justices, and related classes are included in Government Code Section 68203 and Labor Code Section 112.

Proposition 112, which was approved by the voters in June 1990, established the California Citizens’ Compensation Commission. The Commission has responsibility to establish the annual salary, medical, dental, insurance and similar benefits for the Governor, Lieutenant Governor, Attorney General, Secretary of State, Treasurer, Controller, Superintendent of Public Instruction, Insurance Commissioner, members of the Board of Equalization, and members of the Legislature.
